#### **FROSTY MORNINGS**

**EARLY** morning flights— Prepare to remove any ice or frost on the aircraft, **BEFORE** taking off. It adds weight to the aircraft. To avoid the frost, book flights for 9am or later.

#### **THOSE WHO WANT TO FLY EARLY..**

Check with Midfield, we can store plane in hangar, *if space is available*. Due to the excessive cold, *be prepared to not* be able to start the aircraft. If you have trouble starting the aircraft, **PLEASE** come in the office and let us know, before the battery is dead.

**PLEASE SECURE AIRCRAFT** after flight Put in control locks! Winds can wreak havoc and cause damage on poorly tied down aircraft. Ask your CFI how to properly secure aircraft.
