

WATCH THOSE OIL LEVELS

737EC/739HZ

Lycoming engine model H—When operating these Cessnas, oil level should be at a *minimum* of 3 1/2 qts. Flights over 1.5 hours or cross country, 5 qts. would be ideal.

MAX capacity 6qts.

NOTE: It is not recommended to operate any aircraft at MAX levels.

30378/42126 Lycoming

Oil levels should be between 5 & 6 qts. Flights over 2 hours or a cross country 6 qts. is ideal.

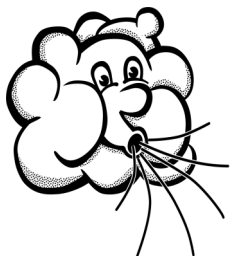

MAX capacity 8 qts.

NOTE: It is not recommended to operate any aircraft at MAX levels.

Talk with Midfield Technicians about the specifics.

WINDS AND THUNDERSTORMS

Desert summers tend to bring isolated thunderstorms as well as gusty, santa ana winds. Check weather before each flight to get up to the minute winds & weather info.

NEW INSTRUCTOR COMING SOON!

INTRODUCING: CFI Ted Johnson

By July's end, there will be a new flight instructor available for you! He comes with an extensive history of hours in several types of aircraft. Call or come by Midfield to get his contact info. so you can book some air time beginning in August 2026.

KEEP Electronic Devices COOL!!

Bring a waterproof, clear, touch-friendly pouch. Slip a non-condensing ice pack inside along with your electronic device. You will be able to use item without it blacking out from heat.

WANNA SHARE AIR TIME??

For pilots going for instrument, etc.. who would like to fly together and share in the cost. Call, email or come by to add your name to our list.

When you sign up, pilots will call you to find common interest in sharing cost in a flight. You would be each other's safety pilot.

DON'T FORGET YOUR PERSONAL ITEMS

AFTER TYING DOWN AIRCRAFT, BE SURE TO GATHER ALL OF YOUR PERSONAL BELONGINGS AND ANY TRASH (i.e. water bottles, oil cans, food containers, etc..) THIS HELPS TO KEEP CABIN CLEAN FOR THE NEXT STUDENT OR PILOT.

MISSING SOMETHING??
