SUNDAY, MAY 12

**WATCH FOR THAT DENSITY ALTITUDE!!
FLYING TO BIG BEAR?
Elevation is 6,772 ft.**

In this rising heat, engines will run hot. So if you see temps rising, level off and gain some speed. Continue to climb when the oil temp has dropped a little bit. I call this "stair-step climbing". Remember to lean since the fuel/air mixture will be too rich for the density altitude, on the ground as well as in the air.

No more than 2 people in the Cessna 172 or Piper Warrior to Big Bear or any high altitude airport. Remember, the density altitude at Apple Valley can be 6,000 ft. elevation is only 3,000 ft.

Discuss this further with your flight instructor.
=====

**TRAINING TOPIC FOR MAY
OFF-FIELD LANDINGS**

When evaluating a place to land during a simulated engine out, the Mojave riverbed should be your LAST option to conduct your off-field landing. *There is a VERY HIGH RISK of flipping over in the very soft sand.* Additionally, landings on dry lakes are NOT covered by insurance— you must land on a paved airstrip at least 3,000ft. Discuss this topic further with your flight instructor!

=====

ALL STUDENTS, PILOTS, CFIs ..

Get insured for those unforeseen events.

When you rent an aircraft from Midfield, you are **responsible for any damage or breakage incurred during your rental time with aircraft.** A repair may be in order due to a blown tire, tube, or wheel parts break, or nose drop etc. Either the student, or CFI may required to pay that bill. If aircraft is left at another airport due to flat tire or dropped mag, etc.. Attempt to seek repairs and **call Midfield to authorize those repairs,** if student or pilot ends up paying for the repairs on site, Midfield would reimburse the cost of those necessary repairs. If there is a need for insurance claim, you will be required to pay the deductible of \$2,500.00 and potentially be sought for additional payment if insurance deems you liable. This is standard in the industry. Here are a couple credible insurance options:

AVEMCO _____ **888-241-7891**
SKYWATCH A.I. _____ **888-849-4902**

NEW CLUB MEMBERS

Allen Jara, John Hayes,
Richard Strome, Samanth Wiechman

On your FIRST SOLO FLIGHT:

John Hayes — CFI Gary McBurney
Kyle Williams — CFI Nathan Hopper

BFR CLASS ENROLLING NOW

For all of the folks who missed out the last BFR class OR if you are a pilot who is coming up on needing your BFR — Give us a call, email or come on by and get on the list.

We will announce the date soon!
Aiming for June 2024

Our heartfelt thoughts of THANKS & APPRECIATION goes out to ALL the busy, hardworking, devoted, home-managing, tirelessly multi-faceted mothers out there raising a family. And those bringing home the bacon too! Today is your SPECIAL DAY to be pampered, showered

with Joyful moments and celebrated with Love!!
Happy Mother's Day to All the Mothers !

Monday, May 27th is a federal holiday dedicated to honoring and mourning the U.S. military personnel who died while serving in the United States Armed Forces. Take a quiet moment on this day to remember all the souls who sacrificed all for the sake of Our Freedom! We will never forget.

**COME OUT & FLY OVER
THE WILDFLOWERS**

The Antelope Valley Poppy Reserve is located approx. 15 miles from Hwy 14 near Lancaster. Vast views of vibrant orange quilting the landscape.

Anza Borrego Desert State Park just west of the Salton Sea bellows beauty of wildflowers after wet winters.

Walker Canyon, Lake Elsinore the Lake Ave exit on HWY 15 is closed, so why not take a flight over this gorgeous canyon of blooming colors!

The Flower Fields, Carlsbad located in the county of San Diego. This is a stunning place to see from the sky! Avoid the crowds & fly over instead!
