

PREFLIGHT THOROUGHLY!!

During the late winter, early spring, birds love to nest. A favorite choice can be inside the engine of an aircraft. Be sure to look closely for any nesting materials. **Be sure to remove any and all nesting materials found as they are a fire hazard!!** Should you find a nest with eggs, please check with Midfield on safe removal. Thank you.

PILOTS INTERESTED IN SHARING AIR TIME

KEEP IN TOUCH

Please update us on any changes with your email, phone # or address information so you can stay in the loop of all the happenings here at Midfield.

PILOTS PLEASE REMEMBER:

DO NOT TOP OFF FUEL TANKS IN AIRCRAFT! overfilling causes fuel to spill out on take-off. Messy and costly!

STUDENT & PILOT INSURANCE

New and current student pilots-- **we highly recommend folks get student/pilot insurance coverage to be there for you in case of any unforeseen event.**

When you rent an aircraft, you are responsible for damage occurred while in your care. Should such an event happen--even if it is not your fault, you are responsible. If an insurance claim is necessary, you will pay the insurance deductible of \$2,500. This deductible is to be paid immediately upon event occurrence.

Please Note: The insurance company reserves the right to pursue third party for any and all additional losses. Obtaining student pilot insurance can surely ease this financial burden. A couple good options to consider are:

AVEMCO.....888-241-7891
Al Skywalker.....888-849-4902

DUES: _____
SPACE: _____
TOTAL: _____
