

MEMORIAL DAY
HONORING ALL WHO SERVED

Today, we pause to remember the lives laid down in defense of the freedoms we hold dear, freedoms that shape the fabric of our everyday lives. May their memory inspire us to uphold the values they fought for and to show gratitude in our actions toward one another.

Let us also remember the families and loved ones who have borne the weight of loss, and express our deepest thanks for their strength and resilience. Their sacrifices, too, are woven into the legacy of this day.

As we gather together, let us reflect on the profound cost of freedom and recommit ourselves to ensuring it is cherished, protected, and shared. We stand united in remembrance, gratitude, and hope.

God Bless America.

Sunday, May 11th, we extend our heartfelt gratitude and deep appreciation for the irreplaceable role mothers play in our lives. May this special day be spent celebrating the remarkable spirit of all mothers this Mother's Day!

****CLUB MEMBERS Flight Special****

BOOK NOW!! to fly
Mother's day Weekend
MAY 10TH or 11TH

Get \$5.00 off per hour, up to 3 hours.

FLY EARLY TO GET BEST TEMPS

Students, pilots, if you are wanting the best performance from the aircraft, be sure to book your times for early in the morning. The engines are air-cooled; when temps heat up, the aircraft does not want to climb. Talk with your CFI on how heat effects the aircraft performance.

CHANGES IN POLICY TO

AFTER HOURS -- SUNDAY FLIGHTS

Students, pilots...Midfield is a pay-as-you-go and at-your-own-pace format. With that said, we have been experiencing delays of payment on the **after-hour flights**. These flights are due the next business day.

Due to many who have been unable to pay within 24-48 hours, we will now require prepayment of any and all after-hour flights in advance.

To prepay, simply come in to post monies to your account.

We will accept cash, check or debit card only.

Any **credit card** prepayments are **subject to a 3% transaction fee.**

PITOT COVERS

Bug season is here!! Students & pilots, **ALWAYS REMOVE the pitot cover BEFORE each flight.** If pitot is left on, your airspeed will read zero. **BE SURE to put the pitot covers ON at THE END of every flight.** If the pitot gets clogged with debris or bugs, it will affect your air speed. Never blow into the tube, as it will damage the instruments inside.
